EXPLANATION OF SERIAL NUMBERS

Serial number information given on any page is applicable only to parts listed and illustrated on that page.

When the parentheses include only the dash (—) the part was introduced on "Not Styled" Tractors (with Serial No. below B60000) **and is still a current part.** The part is also listed in the "Not Styled" Model "B" Tractor catalog.

When a serial number appears **before** the dash (B00000 — the part was introduced **beginning** with that number and is still being used.

When a serial number appears **after** the dash (—B00000) the part was used up to and including that serial number but was not used after that serial number.

When serial numbers appear both before and after the dash . . (B00000 —B00000) the part was used beginning with the first serial number, but was not used after the second serial number.

Serial numbers for magnetos, distributors, power lift, and Powr-Trol are listed instead of tractor serial number on pages applying to these items.
