SERVICE PARTS CATALOG

GENERAL INFORMATION

1. Whenever the terms left or right are used, it should be understood to mean from a position facing in direction of travel.
2. Throughout this manual you find common hardware not illustrated, but listed in the description column. The service part immediately preceding a hardware listing is the part using these particular items for mounting purposes. This hardware is not included with the service part or assembly when ordered as a replacement.
3. NEW HOLLAND NORTH AMERICA, Inc. is continually striving to improve its products. We must, therefore, reserve the right to make improvements or changes when it becomes practical and possible to do so, without incurring any obligation to make changes or additions to the equipment sold previously.

ORDERING PARTS

1. Please submit orders on the Standard Dealer Order Form and mail to your Branch Office. The form should be completely filled in and any special routing so indicated. Telephone orders, being less accurate, should be limited to "emergency situations."
2. It is advisable to consult the Service Parts Price List and/or the Historical Reference List for part number supersession, package quantity and other pertinent information.

ALWAYS USE GENUINE NEW HOLLAND PARTS

NEW HOLLAND NORTH AMERICA, INC., 500 DILLER AVENUE, NEW HOLLAND, PA 17557

TABLE OF CONTENTS

01.	ENGINE
01.01	CYLINDER BLOCK
01.02	CAMSHAFT

18.	ACCESSORIES
18.01	ACCESSORIES

METRIC AND INCH HARDWARE

Allowances have been made in punched and drilled holes to allow interchangeability of metric and inch dimension hardware in fastening and mounting applications. However, this interchangeability does not apply to tapped holes or using metric dimension nuts on inch cap screws, studs and bolts. Likewise, inch dimension nuts cannot be used on metric cap screws, studs or bolts.

Following is a listing of Common sizes for substitution.

Inches	Millimeters
Screw Diameter	
3/16"	5 mm
1/4"	6 mm
5/16 "	8 mm
*3/8"	*10 mm
1/2"	12 mm
9/16"	14 mm
5/8"	16 mm
Screw Length	
5/8"	15 mm
3/4"	20 mm
*1"	25 mm
1-1/4"	30 mm
1-3/8"	35 mm
1-1/2"	40 mm
1-3/4"	45 mm
2"	50 mm
2-1/4"	60 mm
2-3/4"	70 mm
3"	80 mm
3-1/2"	90 mm
4"	100 mm

*EXAMPLE: For most applications a 3/8" x 1" cap screw and nut can be replaced by a 10 mm x 25 mm cap screw and nut.

For additional size information and possible substitutions, either inch to metric or metric to inch, please refer to the conversion table in this catalog.

MC22 MC28 MC35

This diagram is an exploded view of a mechanical assembly, likely a fuel or oil system. It shows the following components and their assembly relationships:

- Top Left Assembly:** Includes a main housing (1) with various internal components like a valve or pump mechanism (2, 3, 4, 5, 6, 7, 8, 9, 10).
- Coil Assembly:** A central component featuring a coiled spring or hose (23) with mounting brackets (24, 28, 29, 30).
- Right Side Assembly:** Includes a complex valve or pump mechanism (31) with various fittings (32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42) and a mounting bracket (16).
- Bottom Left Assembly:** A large housing (12) with a mounting bracket (13) and a long hose (19) connected to a fitting (11).
- Bottom Center Assembly:** A mounting bracket (14) with several screws (15, 16) and a hose (25) connected to a fitting (26).
- Assembly Paths:** Dashed lines indicate the assembly sequence and alignment of parts. Two specific points are labeled with a circled 'A' (A).
