« **ROUNDER** » **BALER**

ILLUSTRATED PARTS LISTING

This is completely revised Illustrated Parts Listing.
It replaces Manuals Number 700050970

REPLACEMENT HARDWARE

The high quality hardware (C 8.8 or grade 5) used on HESSTON equipment as well as bolts, washers, pins, etc., shown on first pages of this manual are considered as standards unless specified otherwise in the Illustrated Parts List. The use of any poor quality of hardware can result in the unanticipated failure of the hardware or related structures, and may cause personal injury, damage to the equipment, or loss of property.

HESSTON ASSURES YOU THE LATEST

You may note an occasional difference between the illustration and an actual part received on your machine or as a replacement. This means you are getting the benefit of a new design improvement made after the release of this manual.

SERIAL NUMBER EFFECTIVITY OF PARTS AND ASSEMBLIES

Due to design changes during the life of this machine, it is necessary to identify the effectivity of the original and the redesigned parts by the machine Serial Number. When an individual part is redesigned, the original part's number and the redesigned part's number will be set off with a bracket.

When a group of parts is redesigned, the earlier configuration will be shown within the main illustration on the page and the latest configuration will be shown as a detail within a border. The bordered detail (insert) will be designated with the applicable machine Serial Number effectivity. When a major redesign has taken place, the entire page will be limited and the Serial Number effectivity will be placed across the top of page.

SYMBOLS INDICATING SERIAL NUMBER EFFECTIVITY

- A black square in front of a part number indicates that the existing stock should be used prior to ordering the superceding part number listed below it.
- The bracket is used to enclose two or more part numbers for a common application.

NOTE: Supercedence and interchangeability cannot always be indicated in the illustration by (■) black square or (□) bracket — be sure to check Serial Number effectivity and substitution of single or related parts in the Parts Listing.

Examples in Parts Listing (with or without Serial Number):

- 742098
□ 748867 This usage indicates that both parts are interchangeable.
- 6278098(S/N 181-001 thru -200)
□ 7326972 (S/N 181-201 and on.) This usage indicates a design change in which the parts are not interchangeable.
- 730020 (S/N 181-001 thru -932)
□ 840101 (S/N 181-933 and on.) This usage indicates that the second part interchanges with the first part but that the second part must be stocked for its respective effectivity.
- 079323 (S/N 181-001 thru -600)
□ 079498 (S/N 181-601 thru -680)
□ 080032 (S/N 181-681 and on.) This usage indicates that the second part interchanges with the first part but that the second part and the third part must be stocked for their respective effectivities.

SERIAL NUMBER IDENTIFICATION

To determine the correct part for your machine, it will be necessary to check the serial numbers. A Serial Number Plate is located on the left front corner of mainframe. This Manual covers machines with Serial Number 140.001.001 and Later. Serial Number 132.001.001 and Later.

BOULONNERIE DE RECHANGE

La visserie de qualité (Classe 8.8 ou Grade 5) utilisée sur le matériel Hesston ainsi que les écrous, rondelles, goupilles, etc., représentés sur les pages de légende de boulonnerie au début de ce catalogue, sont considérés comme standards sauf si une spécification différente est indiquée. L'utilisation d'une qualité inférieure pourrait occasionner une casse imprévisible de la boulonnerie ou des structures sur lesquelles elle est utilisée et pourrait de ce fait représenter un danger pour les utilisateurs, endommager le matériel ou diminuer ses possibilités.

HESSTON ATTIRE VOTRE ATTENTION SUR CE QUI SUIT

Il est possible que vous notiez une différence occasionnelle entre l'illustration et une pièce de votre machine ou une pièce de rechange que vous venez de recevoir. Ceci veut dire que vous bénéficiez d'une amélioration de conception effectuée après la diffusion de ce catalogue.

IDENTIFICATION DES PIÈCES OU ENSEMBLES SELON LE NUMÉRO DE SÉRIE

Du fait des différentes modifications de conception effectuées pendant la durée de vie de cette machine, il est nécessaire de différencier les pièces d'origine des pièces reconçues d'après le numéro de série de la machine. Lorsqu'une pièce individuelle est reconçue, la référence de la pièce d'origine et celle de la pièce reconnue seront reliées par une parenthèse.

Lorsqu'un ensemble de pièces est reconçu, la configuration d'origine sera montrée dans l'illustration principale de la page et la nouvelle configuration sera indiquée comme un détail dans un cadre. Le détail encadré (insert) fera mention du numéro de série à partir duquel la modification est applicable. Lorsqu'une reconception importante a été effectuée, la page entière sera répétée et mention sera faite du numéro de série à partir duquel la modification est effective en haut de la page.

SYMBOLES INDIQUANT LE NUMÉRO DE SÉRIE À PARTIR DUQUEL INTERVIENT LA MODIFICATION

■ Un carré noir devant une référence de pièce indique que le stock existant devra être utilisé avant de commander la référence de remplacement qui est indiquée en-dessous.

□ La parenthèse est utilisée pour inclure deux ou plusieurs pièces ayant une application commune.

NOTA : Le remplacement ou l'interchangeabilité ne peuvent pas toujours être indiqués par un carré noir (■) ou une parenthèse () - Assurez-vous du numéro de série à partir duquel la modification intervient et où il y a substitution par une ou plusieurs pièces dans le catalogue de pièces.

Exemples pris dans un catalogue de pièces (avec ou sans Numéro de Série) :

742098 748867	Ceci indique que les deux pièces sont interchangeables.
6278098 (N° de série 181-001 à 200) 7326972 (N° de série 181-201 et suivants)	Ceci indique une modification de conception dans laquelle les pièces ne sont pas interchangeables.
■ 730020 (N° de série 181-001 à 932) 840101 (N° de série 181-933 et suivants)	Ceci indique que la seconde pièce est interchangeable avec la première mais qu'elle doit être stockée pour son application respective.
■ 079323 (N° de série 181-001 à 600) 079498 (N° de série 181-001 à 680) 080032 (N° de série 181-681 et suivants)	Ceci indique que la seconde pièce est interchangeable avec la première mais qu'elle doit être stockée ainsi que la troisième pour leurs applications respectives.

IDENTIFICATION DU NUMÉRO DE SÉRIE

Afin de déterminer quelle pièce convient à votre machine, il est nécessaire d'en vérifier le numéro de série. Une plaque de série est fixée dans le coin avant gauche du châssis principal. Ce manuel s'applique aux machines portant le numéro de série 140.001.001 et suivants. de série 132.001.001 et suivants.

ERSATZ-SCHRAUBEN

Die für das Hesston-Material benutzten Qualitätsschrauben (Klasse 8.8 oder Grad 5), sowie die Muttern, Beilagscheiben, Vorstecker, u.s.w., die auf den Schrauben-Textseiten am Anfang dieses Kataloges dargestellt sind, gelten als Standardausführung, falls keine anderweitige Spezifikation angegeben ist. Die Verwendung einer geringeren Qualität kann zu einem unvorhergesehenen Bruch der Schrauben oder der Strukturen führen, auf welchen sie benutzt werden, und dadurch eine Gefahr für den Gebrauch darstellend, das Material beschädigen oder dessen Leistungsmöglichkeiten verringern.

HESSTON LENKT IHRE AUFMERKSAMKEIT AUF FOLGENDES

Es ist möglich, dass Sie zwischen der Illustration und einem Teil Ihrer Maschine oder einem empfangenen Ersatzteil gelegentlich einen Unterschied bemerken. Dies besagt, dass Ihnen eine Verbesserung der Ausführung zugute kommt, die nach der Katalog-Ausgabe erfolgte.

IDENTIFIZIERUNG DER TEILE ODER GRUPPEN GEMASS DER SERIEN-NUMMER

Infolge der während der Lebensdauer dieser Maschine erfolgten Änderungen der Ausführung ist es nötig, die Ursprungsteile von den neugeschaffenen Teilen durch die Serien-Nummer der Maschine zu unterscheiden. Wurde ein Einzelteil neugeschaffen, dann wird die Referenz-Nr. des Ursprungsteiles und jene des neugeschaffenen Teiles durch ein Klammerzeichen verbunden.

Wurde eine Teilegruppe neugeschaffen, wird die ursprüngliche Gestaltung in der Hauptillustration der Katalogseite gezeigt und die Neugestaltung als Detail in einer Umrahmung. Das umrahmte Detail (Einsatz) enthält die Serien-Nr., ab welcher die Änderung anwendbar ist. Erfolgte eine bedeutende Neugestaltung, wird die ganze Katalogseite wiederholt mit der Angabe der Serien-Nr. am Seitenoberteil, ab welcher die Änderung in Kraft tritt.

SYMBOLE ZUR ANGABE DER SERIEN-NR., AB WELCHER DIE ÄNDERUNG IN FRAGE KOMMT

■ Ein schwarzes Viereck vor der Teile-Nr. zeigt an, dass der existierende Vorrat zu benutzen ist, bevor die darunter angeführte Ersatz-Teile-Nr. bestellt wird.

□ Das Klammerzeichen wird benutzt, um zwei oder mehrere Teile einzubeziehen, die eine gemeinsame Anwendung finden.

ANMERKUNG: Das Ersetzen oder die Austauschbarkeit können nicht immer durch ein schwarzes Viereck (■) oder ein Klammerzeichen (□) angegeben sein. Beachten Sie daher die Serien-Nr., ab welcher die Änderung eintritt und wo eine Ersetzung durch ein oder mehrere Teile im Katalog angegeben wird.

Beispiele aus dem Teile-Katalog (mit oder ohne Serien-Nr.):

- | | |
|---|---|
| □ 742098 | Dies gibt an, dass die zwei Teile austauschbar sind. |
| □ 748867 | |
| □ 6278098 (Serien-Nr. 181-001 - 200) | Gibt eine Ausführungs - Änderung an, wo die Teile unaustauschbar sind. |
| □ 7326972 (Serien-Nr. 181-201 u. folg.) | |
| ■ 730020 (Serien-Nr. 181-001 - 932) | Gibt an, dass das zweite Teil mit dem ersten austauschbar ist, dass es jedoch für seine gegenseitige Verwendung zu lagern ist. |
| □ 840101 (Serien-Nr. 181-933 u. folg.) | |
| ■ 079323 (Serien-Nr. 181-001 - 600) | Gibt an, dass das zweite Teil mit dem ersten austauschbar ist, dass es jedoch so wie das dritte für seine entsprechende Verwendung zu lagern ist. |
| □ 079498 (Serien-Nr. 181-601 - 680) | |
| □ 080032 (Serien-Nr. 181-681 u. folg.) | |

IDENTIFIZIERUNG DER SERIEN-NUMMER

Um zu ermitteln, welches Teil sich für Ihre Maschine eignet, ist es nötig, die Serien-Nummer nachzuprüfen. In der linken Vorderecke des Hauptrahmens ist ein Serien-Nr.-Schild befestigt. Das Handbuch findet für Maschinen Anwendung, welche die Serien-Nr. 140.001.001 und folgende haben. die Serien-Nr. 132.001.001 und folgende haben.

BULLONERIA DI RICAMBIO

Le viti e i bulloni di qualita (Classe 8.8 o grado 5) impiegati sul macchinario Hesston, come pure i dadi, le rondelle, le coppiglie ecc. illustrati sulle pagina di legenda della bulloneria all'inizio del catalogo, sono considerati come standard tranne se e indicata una diversa specifica. Una qualita inferiore potrebbe provocare la rottura imprevedibile della bulloneria o delle strutture sulle quali essa e impiegata, costituendo cosi un pericolo per gli utenti o un rischio di danneggiamento del materiale o di diminuzione delle sue prestazioni.

HESSTON ATTIRA LA VOSTRA ATTENZIONE SU QUANTO SEGUE

Nel caso doveste constatare un'eventuale differenza tra l'illustrazione e un pezzo della vostra macchina oppure un pezzo di ricambio appena ricevuto, cio' vuol dire che beneficate di un miglioramento di concezione apportato dopo la diffusione del catalogo.

IDENTIFICAZIONE DI PEZZI O GRUPPI SECONDO IL NUMERO DI SERIE

Nel corso della vita di questa macchina vengono apportate diverse modifiche di concezione ed e dunque necessario poter riconoscere i pezzi d'origine dai nuovi pezzi modificati secondo il numero di serie della macchina. Quando un singolo pezzo e modificato, il numero di codice del pezzo d'origine e quello del nuovo pezzo modificato sono riuniti con una sola parentesi.

Quando e un insieme di pezzi che si trova modificato, il disegno d'origine sara mostrato nell'illustrazione principale della pagina e il nuovo disegno sara indicato come particolare in un riquadro. Oltre al nuovo insieme di pezzi nel riquadro sara ugualmente indicato il numero di serie a partire dal quale e stata applicata la modifica. Se un complessivo alquanto importante e stato modificato, la pagina completa sara ripetuta e in alto della pagina sara riportato il numero di serie a partire dal quale la modifica e introdotta.

SIMBOLI INDICANTI IL NUMERO DI SERIE A PARTIRE DAL QUALE SI ADOTTA LA MODIFICA

■ Un quadrato nero davanti al numero di codice del pezzo indica che le scorte esistenti devono essere esaurite prima di ordinare il nuovo pezzo modificato e il cui numero e indicato sotto l'altro.

□ La parentesi e usata per due o piu pezzi destinati allo stesso impiego.

NOTA: La sostituzione o l'intercambiabilita non si possono sempre indicare con un quadrato nero ■ o una parentesi (). Accertarsi del numero di serie a partire dal quale e applicata la modifica e consultare il catalogo dei pezzi per vedere quali sono i pezzi sostituiti.

Ecco alcuni esempi presi in un catalogo di pezzi (con o senza numeri di serie) :

□ 742098	
□ 748867	Cio' indica che i due pezzi sono intercambiabili
□ 6278098 (N° di serie 181-001 a 200)	Cio' indica una modifica di concezione per la
□ 7326972 (N° di serie 181-201 e successivi)	quale i pezzi non sono intercambiabili.
■ 730020 (N° di serie 181-001 a 932)	Cio' indica che il secondo pezzo e intercambia-
□ 840101 (N° di serie 181-933 e successivi)	bile con il primo ma che va in stock per l'impiego previsto.
■ 079323 (N° di serie 181-001 a 600)	Cio' indica che il secondo pezzo e intercambia-
□ 079498 (N° di serie 181-601 a 680)	bile con il primo ma esso va in stock, come il
□ 080032 (N° di serie 181-681 e successivi)	terzo, per l'impiego previsto.

IDENTIFICAZIONE DEL NUMERO DI SERIE

Per determinare qual'e il pezzo che conviene alla vostra macchina, e necessario controllarne il numero di serie. Questo e riportato su una targhetta fissata nell'angolo anteriore sinistro del telaio principale. Questo manuale concerne le macchine con numero di serie 140.001.001 e successivi. con numero di serie 132.001.001 e successivi.
